Company Incorporation and Business Setup in Oman

Your Professional Partner for Company Formation and Business Establishment in Oman

The Sultanate of Oman offers promising opportunities for entrepreneurs, international investors and organisations looking to establish or expand their presence in the Middle East. Its strategic geographical location, economic diversification initiatives and evolving investment environment make it an important destination for businesses exploring regional expansion.

BNC Global Consultech Private Limited provides professional assistance to entrepreneurs, investors and international organisations seeking to establish business operations in Oman. We support the company formation journey through incorporation guidance, documentation assistance, registration coordination and collaboration with relevant local professionals.

Whether you are planning to establish a new venture, expand an existing business or explore opportunities in the Omani market, our professional network aims to support you through the key stages of business establishment and market entry.

Why Choose Oman for Business Establishment?

Oman offers several advantages for businesses and investors considering expansion into the Middle East and international markets.

- **Foreign Investment Opportunities:** Foreign investors may obtain 100% ownership in many eligible business activities, subject to applicable laws and sector-specific restrictions.
- **Strategic Geographical Location:** Oman provides access to important international trade routes connecting the Middle East, Asia and Africa.
- **Developing Business Environment:** Regulatory reforms and digital government initiatives are contributing to the development of business registration and administrative processes.
- **Diversified Economic Opportunities:** Investment opportunities exist across sectors such as logistics, manufacturing, tourism, technology, infrastructure and professional services.
- **Special Economic and Free Zones:** Designated investment zones offer infrastructure facilities and potential incentives, subject to applicable eligibility conditions.

Company Incorporation Process in Oman

Establishing a company in Oman involves selecting the appropriate business activity and legal structure, completing registration formalities and obtaining the necessary regulatory approvals.

BNC Global Consultech Private Limited can assist businesses in navigating the general stages of company incorporation:

1. **Business Activity Assessment:** Identify the proposed business activities and assess their eligibility under applicable Omani regulations.
2. **Legal Structure Selection:** Determine the appropriate entity structure, such as a Limited Liability Company (LLC), foreign company branch or another permitted legal structure.
3. **Trade Name Reservation:** Select and reserve a suitable company name in accordance with Omani naming requirements.
4. **Documentation Preparation:** Compile shareholder details, constitutional documents and other supporting records.
5. **Commercial Registration:** Submit the incorporation application through the relevant government platform and complete Commercial Registration (CR) formalities.
6. **Investment Licensing:** Fulfil applicable foreign investment licensing requirements.
7. **Regulatory Approvals:** Obtain additional municipal, sector-specific and operational approvals, wherever applicable.
8. **Tax Registration:** Complete relevant registration formalities with the Oman Tax Authority.
9. **Corporate Bank Account Assistance:** Coordinate the corporate bank account opening process, subject to the bank's due diligence and approval.
10. **Post-Incorporation Compliance:** Address applicable accounting, taxation, employment and ongoing statutory compliance requirements.

Documents Required for Company Incorporation in Oman

The documentation requirements depend on the proposed legal structure, shareholder composition, business activities and applicable regulatory requirements.

The following documents are generally required:

A. Individual Shareholders and Investors

- Valid passport copies of shareholders, directors and proposed managers, as applicable.
- Residential address and contact details.
- Recent bank statements, wherever required.
- Professional background and investor experience details, where applicable.
- Business plan or project feasibility study, if required.
- Proposed company name and intended business activity details.

B. Corporate Shareholders

- Certificate of Incorporation or Commercial Registration of the parent company.
- Memorandum and Articles of Association of the parent entity.
- Board resolution authorising the establishment of the Oman entity.
- Power of Attorney or authorisation appointing the designated representative.
- Shareholding structure and Ultimate Beneficial Ownership (UBO) details.
- Duly attested or legalised corporate documents, wherever required.

C. Additional Incorporation Requirements

- Proposed registered office address in Oman.
- Lease agreement or supporting evidence of business premises, as applicable.
- Draft Memorandum and Articles of Association of the proposed company.
- Details of authorised signatories and specimen signatures, where required.
- Additional declarations, supporting documentation and sector-specific approvals, depending on the nature of the business.

Note: The final documentation checklist is subject to the proposed business activity, legal structure and requirements of the relevant Omani authorities.

All services are provided subject to applicable Omani laws, professional licensing requirements and regulatory authorisations. Where necessary, services are coordinated with appropriately qualified local professionals.

About BNC Global Consultech Private Limited

BNC Global Consultech Private Limited is a global professional services and consulting organisation committed to delivering integrated business, financial, accounting, taxation, audit and advisory solutions.

With an international network and professional presence across **Saudi Arabia, Dubai, Singapore and other key markets**, we facilitate cross-border business support through multidisciplinary expertise and collaborative professional relationships.

Our approach combines technical knowledge, industry understanding and international professional networks to address the evolving requirements of businesses operating across different jurisdictions.

We focus on building long-term professional relationships and delivering practical business solutions that help organisations navigate regulatory environments, strengthen financial management and pursue sustainable growth.

Join the BNC Global Partnership Platform – Expand Your Network Across the GCC and International Markets

At **BNC Global Consultech Private Limited**, we believe that strong professional partnerships create opportunities for sustainable business growth. To strengthen international collaboration and connect businesses with the right professional expertise, we have developed the **BNC Global Partnership Platform – BNC LEG**.

The platform provides a structured ecosystem connecting professional firms, independent consultants, service providers, technology companies and business representatives across different markets.

Through this platform, professionals and organisations can explore collaboration opportunities, expand their service networks, connect with potential business opportunities and develop mutually beneficial professional relationships.

Partnership Opportunities

We welcome professionals and organisations in Oman to explore the following partnership categories:

- **International Partners:** Accounting firms, consulting organisations and professional service providers interested in cross-border alliances, regional expansion and international business collaboration.
- **Service Partners:** Chartered Accountants, audit firms, tax consultants, legal professionals, corporate service providers and specialised consultants interested in delivering professional services.
- **Sales Partners:** Business development professionals, referral partners and channel partners interested in generating business opportunities and expanding market reach.
- **Technology Partners:** Technology companies, software providers and digital solution specialists interested in technology integration and collaborative business solutions.

Benefits of Joining the BNC Partnership Network

- Opportunities to connect with professionals and organisations across international markets.

- Access to a wider professional network and potential business collaborations.
- Opportunities to participate in cross-border assignments and service delivery.
- Scope to expand service offerings through collaboration with specialists from different domains.
- Structured partner onboarding and profile management.
- Visibility of leads, deals and commissions through platform dashboards, subject to the applicable partnership model.
- Opportunities to develop new business relationships and additional revenue streams.

How to Become a BNC Partner

The partnership process is designed to provide a structured onboarding experience:

1. **Register Online:** Submit your partnership application through the BNC Global Partnership Platform.
2. **Complete Onboarding:** Provide the required business information and KYC documentation.
3. **Profile and Service Setup:** Complete your partner profile and identify your areas of professional expertise.
4. **Explore Collaboration Opportunities:** Connect with relevant professionals and explore suitable business and service opportunities.
